Who I am

Tourism suffered as a result of a strong economic slowdown of the late-2000s recession, between the second half of 2008 and the end of 2009, and the outbreak of the H1N1 influenza virus,[3][4] but slowly recovered. International tourism receipts (the travel item in the balance of payments) grew to US\$1.03 trillion (€740 billion) in 2011, corresponding to an increase in real terms of 3.8% from 2010.[5] International tourist arrivals surpassed the milestone of 1 billion tourists globally for the first time in 2012
